

Dear Friends at the FCC,

We are currently subscribers to XM Satellite Radio. We chose to subscribe for a number of reasons. The first reason was the access to wide variety of sources. It is important to us to have a wide variety of news sources, and we have varying musical tastes within our families. Satellite radio provides us with the variety important to us. A second reason, is that we travel extensively in a six-state area for our business. Satellite radio assures us access to the information, news, and music we are interested in, regardless of our location. We have long been supporters of diversity in media, and XM gives us that. I hope the FCC will act on the NAB's petition in a way that allows us to continue access to the programming we are willing to pay for.

Kathy and Jim Geary
